

# ECO-ESTATE AGENT

Well done on designing a brilliant eco-home so far! Write the blurb that an estate agent would use to advertise and sell the house. Include all the best features, even turning the boring bits into positives!

Advertisements like this are always filled with buzzwords and exciting descriptive language, so be sure to include lots of good adjectives!

You could even draw the pictures to go along with the Estate Agent's listing of the property.

Show us your blurbs in our gallery! It's a great way for everyone to understand and appreciate your completed eco-home.
