

EXTRA EXTRA!

You're an inventor! You've already made two machines today, now it's time to let people know.

Choose your favourite machine from today, or come up with a brand new one and **write an advert**. This can either be for a newspaper, or you could write the script for a tv advert - don't forget the jingle!

Remember... **everyone should want one!** Think about making it sound the very best it can.
