

POSTCARDS TO SPACE!

What message would you send into outer space?

VOYAGER GOLDEN RECORDS

In 1977, the Voyager spacecrafts took two Golden records into space. The records had messages in 55 languages and music, pictures and sounds from Earth.

CREATE YOUR OWN MESSAGE!

If you could send a message into space, what would you send? Design a postcard with a picture from Earth on one side and your message on the other.

We can't wait to see your postcards. Please do share your work to our gallery!!
